Additional DWI Patrols over Holiday period a Success

January 8, 2009 (Frisco, TX.)

On January 1, Frisco Police Department concluded their 1st enforcement period for the Impaired Driving Mobilization (IDM) program. The program is a partnership with the Texas Department of Transportation and it provides funding for additional patrol officers to be on the street for the sole purpose of catching intoxicated drivers during holiday periods throughout the year. Frisco Police made four DWI arrests out of four shifts as a result of officers' work in the program this period. This is Frisco's second year of participation in the program and they have expanded the program from last year to provide more shifts.

This was the first enforcement period of the IDM grant for 2009. Frisco Police would like to thank TXDOT for their assistance in making this grant available for this year and they look forward to another successful enforcement period during Spring Break from March 6 – March 22.
